1. A new Communist front organization, Circulo de Estudios de Ingenieros, Arquitectos y Tecnicos (Engineers', Architects' and Technicians' Study Group), has been formed by the Communist Party of Chile.
2. The leaders of this organization are reported to be Enrique Kirberg Baltianok, ex-member of the Central Committee of the Communist Party and an electrical engineer over the Banco Espanol on Calle Estado corner of Calle Ramon Nieto, Santiago, and Sergio Volosky Mirochnck, former head of the Jewish Communist cell in Santiago and a civil engineer. Another active member is Communist member Hugo Monreal Bello, an official of the Department of Public Works. Guillermo Del Pedregal and Florencio Oyarzun are honorary members of the new organization.
3. The main aim of this group is the organization of periodic public meetings at which the principal theme will be the American penetration of Chilean industry. Also in preperation is a special report regarding the present condition of Chilean technicians which recommends an anti-imperialist campaign by the labor groups in opposition to the alleged "invasion" of Chile by foreign, and particularly American technicians. It is planned to organize these meetings at the University of Chile, at Santiago theaters or at technical associations.
